

The purpose of this Policy is to ensure passengers travel safely and in comfort.

This Policy applies to all staff, whether they are required to drive vehicles as an integral part of their work or whether they use their own or hired vehicles on a needs-driven basis.

Safe, well-maintained and optimally performing vehicles increase service quality, improve customer satisfaction and bring new customers. Safety is paramount and Haughley Block Plant Ltd believe in investing time/money in regularly reviewing and developing safety objectives to ensure equipment is in good condition/safe to use and our services exceed the safety expectations of our customers and our employees feel safe at work.

Drivers are responsible for ensuring that their vehicle is:

- Clean, tidy and free from hazards.
- Serviced regularly and in roadworthy condition.
- Has a valid MOT, is taxed and insured.
- A walkaround check is completed prior to using the vehicle.
- Any faults or concerns are reported.
- Emergency equipment, exits and lighting are in good working order.
- The vehicle is safe to drive and carry passengers.

Requirement	HGV	PCV	Van	Car	P2W
Passenger Conflict Action	Find a safe place to leave the main road and stop the vehicle. Turn off the engine, remove the vehicle keys and ask the passenger(s) to disembark. Proceed to exit the vehicle to assess the situation on ground level.	Find a safe place to leave the main road and stop the vehicle. Turn off the engine. Ask passenger(s) in conflict to disembark the vehicle to resolve the issue outside of the vehicle and away from other passengers.	Find a safe place to leave the main road and stop the vehicle. Turn off the engine, remove the vehicle keys and ask the passenger(s) to disembark. Proceed to exit the vehicle to assess the situation on ground level.	Find a safe place to leave the main road and stop the vehicle. Turn off the engine, remove the vehicle keys and disembark if space is needed to assess the situation.	Find a safe place to leave the main road and stop the vehicle. Turn off the engine. Ask the passenger to dismount. Remove protective headwear and assess the situation.

Where vehicles are accessible to disabled passengers, drivers must ensure:

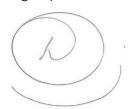

- Passengers are requested to stow luggage/personal items in storage shelves/lockers above their seats.
- Gangways and emergency exits are clear and not obstructed.
- Restraint systems are safely stowed when not in use.
- Wheelchairs/frames are secured within the vehicle and are accessible in an emergency.
- Instructions on securing/releasing accessibility restraints are given to wheelchair passengers or are readily visible.
- On-board instructions and notices applicable to passengers are clear, clean and visible.
- Emergency equipment (first aid kit/fire extinguisher) is regularly serviced/working.

Disclosure Barring Service Checks

In the main, Hughley Block Plant Ltd does not conduct 'DBS' checks as its current operations do not require it to do so. However, the company does understand and recognise that if this changed, drivers/staff who were to encounter passengers within the role of an escort or conductor would require a pre-employment check through the Disclosure Barring Service. If this became a requirement for the company, employment would not commence until a satisfactory application certificate had been received or an online check had confirmed an employee has no criminal record or restrictions placed upon them with regards to working with vulnerable adults and/or children. In addition, all customer contact staff requiring DBS clearance would be checked at least once every three years.
