

Haughley Block Plant Ltd.'s purpose is "bringing resources to life". The sustainable use of natural capital, that is our natural assets including rivers, oceans, forests, resources, minerals, and land, is fundamentally important to all of us.

Our business depends on water, and we are focused on providing and using water in the most efficient and sustainable way possible.

This policy sets out our commitment to improve our water management, as well as influencing our value chain (customers and suppliers) to encourage best practice in water efficiency.

We will:

Measure and Manage

- Implement our Water Resources Management Plan, which sets out Water Resources Use Strategy and Targets
- Actively manage and reduce water leakage across our factory premises.
- Ensure good planning and understanding of future risks and opportunities to inform decision making and effective water risk management.
- Continue to assign managerial responsibility for sustainable water management across the business.
- Continue to measure and analyze, our suppliers' and customers' overall per capita consumption.
- Monitor and publicly report our own internal water consumption.

Continue to Engage

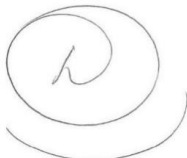

- Promote and deliver initiatives to raise awareness of sustainable water management and encourage our employees to reduce freshwater use.
- Engage and inspire our customers and suppliers to minimize their own water consumption through the delivery of public campaigns, community- based water efficiency initiatives, education programs and active promotion of positive actions we've taken.
- Continued support of our relevant charity partners

Improve

- Reduce leakage and future demand for water.
- Optimize our use of water resources, deliver continual improvement in water efficiency and ensure we are resilient to future droughts and potential climate change impacts.
- Reduce our operational water use by utilizing rainwater into all mixes.

The company director is responsible for leadership and implementation of this policy and for monitoring and reviewing the water management performance of Haughey Block Plant Ltd.

Liam Clear
 Managing Director
 Haughley Block Plant Ltd
